SUMMARY

Entry-level full-stack developer completing a B.Sc. in Computer Science, with solo projects across web, Android, REST APIs, databases, authentication, automated testing and CI/CD. Built a multi-tenant maintenance PWA, a Java/Spring Boot recipe platform, a real-time file-transfer PWA and an interactive finite-automata editor. Looking for a remote junior full-stack role.

TECHNICAL SKILLS

Languages: JavaScript, Java, SQL; Python, C++, C

Frontend & Mobile: React, Vite, React Router, Bootstrap, Tailwind CSS, PWA/service workers, SVG, Android SDK, MVVM

Backend & Data: Node.js, Express, Spring Boot, REST APIs, Socket.IO, MongoDB, Mongoose, GridFS, MySQL, JPA, Flyway

Testing & Tools: Jest, Vitest, React Testing Library, Supertest, JUnit, Mockito, GitHub Actions, Docker Compose, Maven, Gradle, npm

Security: JWT, HTTP-only cookies, refresh-token rotation, bcrypt, RBAC, rate limiting, CORS, Helmet, request sanitization

SELECTED SOLO PROJECTS

MaintenanceSystemApp

React 19, Vite, Node.js, Express, MongoDB

github.com/yaronserlin/MaintenanceSystemApp

- Built a multi-tenant maintenance system for equipment, fault reports, preventive schedules, spare-parts inventory and secure file/media handling.
- Enforced tenant isolation and role-based access; added HTTP-only JWT authentication, rate limiting, PWA notifications/offline behavior and frontend/backend tests.

CookSync

Java, Android MVVM, Spring Boot, MySQL

github.com/yaronserlin/cook-sync

- Developed recipe discovery and publishing, guided cooking timers and admin moderation across an Android client and a Spring Boot/MySQL API.
- Shared Maven DTOs across client and server; integrated Firebase and Cloudinary; automated tests and signed APK releases with GitHub Actions.

Share & Copy

React, Node.js, MongoDB, Socket.IO

github.com/yaronserlin/ShareAndCopy

- Created a real-time PWA for QR/one-time device pairing, live presence, direct peer-to-peer file transfer, device revocation and web push.
- Implemented JWT with refresh-token rotation, validation, rate limiting, security headers and frontend/backend tests; files move device to device without server storage.

Automata Editor

JavaScript, SVG, Tailwind CSS, KaTeX

github.com/yaronserlin/automata-editor

- Built an accessible DFA/NFA diagram editor with zoom/pan, keyboard controls, save/load, and SVG and LaTeX/TikZ export.
- Structured the app with plain JavaScript modules and added Vitest coverage.

EDUCATION

B.Sc. Computer Science - The Open University of Israel

In progress, expected July 2027

ADDITIONAL EXPERIENCE

UAV Pilot & Operator (Reserves) - Israel

2023 - 2026

Operated and maintained UAV systems, set up mobile command infrastructure, analyzed terrain and structures, and coordinated with ground and air teams in safety-critical environments.

Agricultural Mechanic & Fabricator - Ahituv Agricultural Services, Israel

2020 - 2026

Diagnosed, repaired and maintained heavy agricultural machinery; fabricated parts using welding, manual lathes and milling machines; coordinated operators during harvest seasons.

Soldier, Israel Defense Forces - Israel

2014 - 2017

Worked in team-based field operations, led small groups in training, and followed safety and mission procedures in high-pressure settings.

LANGUAGES

Hebrew - native | English - very good
